My Basic Website

Recreate this website using only what we learnt in units 1 to 3: a clean HTML structure and CSS rules built from element selectors, combinators and pseudo-classes. The whole header – including the logo – is centered.

TEXT AND FONTS

This first paragraph after a level two heading is written in italics – just like the first paragraph after every other level two heading.

The whole page uses a font without serifs, darkslategray as text color and ivory as background color. The line height is 1.5.

Headings of level one and two are navy. Level two headings are centered and written in uppercase letters – but not in the HTML source, changing the look of text is the job of CSS!

Some words are **strongly important**: they are bold – as usual – and have a yellow background. Others are only *emphasized* and keep the default style of the browser.

Links

Links like this one to the MDN CSS reference are darkgreen and not underlined – even after they have been visited. When the mouse pointer hovers over a link, it is underlined and gets a lightgreen background.

LISTS

All three kinds of lists appear on this page. Every bullet point and every number is crimson.

Before You Start

- ✓ Watched units 1 to 3
- ✓ Installed WebStorm and two browsers
- ✓ Know how to validate HTML

A list which directly follows a level three heading uses the provided check mark image as bullet point.

Shopping List

All other unordered lists use squares as bullet points.

- Bread
- Milk
- Apples
- Chocolate (a lot of it)

Snack Countdown

Ordered lists use uppercase Roman numbers. This one counts down from three to one – CSS cannot do that, but an HTML attribute can.

III. Chips
II. Chocolate
I. Pizza

Glossary

HTML
: Structure and content of a web page

CSS
: Presentation and design of a web page

Selector
: Decides which elements a CSS rule applies to

Terms in description lists are bold.

TABLES

Tables are for tabular data – like the prices of our school buffet.

School Buffet

Snack	Category	Price (€)
Pretzel	Bakery	1.20
Cheese roll	Bakery	2.40
Apple	Fruit	0.80
Pizza slice	Hot food	2.90
Iced tea	Drinks	1.70
Average price		1.80

The table has a caption, a header row, five rows of data and a footer row. All cells have a thin (1px), solid, gray border – and there are no double lines between them. The header row has a navy background and white text. Every even row of data has a lightgray background. The row of data below the mouse pointer turns lightblue – even if it is an even row.
